

Contour

Custodian: The Corporation of the District of Saanich

Revised Publish Date: Feb 27, 2026

Abstract: Contours represent lines that join points of equal elevation. They are comprised of continuous lines in 1 metre height increments and are derived from spot elevations and breaklines captured in the aerial photography acquisition project, May 2025.

Purpose: Contours support management and planning within the District of Saanich.

Status: Complete

Update Frequency: Approximately every 2 to 4 years.
