

Street

Custodian: The Corporation of the District of Saanich

Publish Date: January 1, 2003

Abstract: Streets are linear features that represent the centreline of each street within the District of Saanich. Lines are segmented at street intersections and generally follow the centre of the street and contain left and right address ranges to support geolocation.

Purpose: Street centrelines are captured to support the management of street infrastructure, classifications, and address ranges within the District of Saanich. They are captured to improve policy and decision making.

Status: Complete

Update Frequency: Monthly
